## COMMERCIAL

BY  
DANIEL LOGAN.

There would seem to be evidence that most of the trouble with the sugar market now is the disturbance in European beet. For more than a week the price of centrifugal 96 degrees test in New York has stood at 3.025 cents a pound, or \$72.50 a ton; whereas 88 analysis beets has gravitated, by several drops, during the past week from 88. 3/4 d. long cwt., \$77.20 ton, to 88. 3/4 d. and \$75.60 respectively.

Another light week on the local stock exchange is to be reported. A block of 1000 shares of Honokaa at \$15.50 recorded yesterday is the biggest deal in some time. It is believed to have been sold by A. Pollitz of San Francisco to M. A. Schaefer & Co. As the price is appreciably higher than the prevailing quotations both here and in San Francisco, the natural presumption is that Schaefer had to pay a premium for securing so large a block. That firm is agent for Honokaa and this purchase materially strengthens its control of the stock. A cablegram from San Francisco yesterday reported Honokaa sold at \$13.75 and offered at \$14.50. It will be seen that small blocks locally are several points higher. Rapid Transit 6 per cent. bonds at 108 will give some idea of the demand for that class of security.

Transactions for the week have been as follows: Ewa (\$20), 450 at \$27.50, 129 at \$27.25, 46, 50 at \$27.50; Kihei (\$50), 100, 30, 10 at \$8, 8 at \$8.25; Hon. Rapid Transit Com. (\$100), 10, 10 at \$67.50; Honokaa (\$20), 25 at \$15.25, 40 at \$15, 1000 at \$15.50, 5 at \$15.12 1/2; Kahuku (\$20), 5, 5, 5 at \$25; Waialua (\$100), 50 at \$72.50, 100 at \$75, 15, 5 at \$74; McBryde (\$20), 50, 500, 240 at 06; O. R. & L. Co. (\$100), 16 at \$89.50; Haw. Sugar (\$20), 80 at \$33; Oahu (\$100), 8 at \$100; Oekala (\$20), 20, 25 at 06; Cal. Beet Sug. & Ref. Co. 6's, \$4000 at 102.75; Oahu Sugar Co. 6's, \$6000 at 103.50; Hon. Rapid Transit 6's, \$2000 at 108.

### GENERAL REVIEW.

It is reported from Portland, Ore., that a line of turbine steamers, to run 20 knots an hour, will shortly be built for a line from Portland to Honolulu via San Francisco and San Pedro. The story goes that the Hamburg-American company is behind the scheme and will effect a subsidiary American organization to carry out the project. A steamer is to leave Portland every Wednesday for Honolulu and intermediate ports. "Picking up the tourist passengers from all over the world" at Honolulu, after the completion of the Panama canal, is mentioned as a feature of the enterprise.

By the steamer Nevada last Sunday the salved freight of the lately stranded Alameda arrived, and the requirement of having to sign general average bonds caused a flutter of several days among consignees. The prevalent lack of information about general average evinced was an evidence of the remarkably small amount of loss from perils of the sea which has occurred in the carrying trade between the Pacific Coast and these islands within the life-time of this generation.

There has been considerable agitation for some little time of the proposal to establish a home-owned steamship service between here and San Francisco, but nothing definite on the subject has yet appeared beyond a few promises to invest money in the scheme.

The Pacific Mail Steamship Co., for its last fiscal year, had gross earnings of \$5,775,783, an increase of \$2,174,017 over the previous year. The balance after deducting expenses was \$1,295,012, from which was deducted \$496,000 for depreciation, etc., and \$371,000 for lease of new piers in San Francisco. All this left a surplus of \$427,656, or \$180,760 more than the year before.

It is rumored that Capt. Wm. Matson of the Matson Navigation Co. has bought a steamer on the Atlantic, said to be 400 feet in length and to have a speed of 16 knots, which will be placed on either the Honolulu or the Hilo route from San Francisco.

H. P. Wood, the new secretary of the Hawaii Promotion Committee, has arrived and assumed the duties of that office. From his previous connection with the California Promotion Committee, it is hoped that the tourist interests of California and Hawaii will be brought closer together than heretofore.

The Canadian-Australian Line will, at the beginning of the ensuing year, replace the steamer Moana with the turbine liner Maheno.

A decision of the U. S. Court of Appeals in San Francisco has affirmed the action of Collector Stratton, opposed by the Oceanic Steamship Co., in having collected \$2 per head for 210 alien passengers in transit through the United States.

Land Commissioner Pratt has received assurances of support from some of the largest sugar planters, in the policy of having cane lands on which government leases are expiring settled by families that will maintain the present state of cultivation thereon.

Two new corporations have been registered for developing Hamakua lands—the Weha Agricultural Co. and the Kalopa Agricultural Co., the former with a capital stock of \$50,000 and the latter with that of \$100,000. The holders of the stock are William G. Irwin, Walter M. Giffard, Henry M. Whitney and E. I. Spalding of Honolulu and Edward Pollitz, Albert Meyer and Henry St. Gear of San Francisco. Part of the purposes of both companies is to plant, cultivate, grow and produce coffee, tobacco, rubber, sugar cane, sugar beets, vanilla, pineapples and other tropical products, and to manufacture and sell any or all of such products.

F. B. McStocker and associates have purchased from Kapiolani Estate, Ltd., about 1000 acres of land in North Kona, including the Kona Sugar Co.'s mill, ending a great deal of litigation and ensuring the revival of sugar production in that section.

to run, and the entire outfitings of the premises for \$10,000 and \$1000 respectively. Geo. W. Macfarlane, mortgagee, was the purchaser in each case on the first bid.

Among real estate transactions are noted releases to John F. Colburn of various properties for \$20,000 and to John F. Colburn et al. of other properties for \$7375.66.

The stockholders of the Waialua Agricultural Company have authorized the issue of 5 per cent. bonds to the amount of \$1,500,000 and their sale as low as 98. These bonds have already been oversubscribed, Castle & Cooke, Ltd., and the Bank of Hawaii standing ready to take \$500,000 each and present bondholders being ready to exchange their present bonds for the new ones to the amount of \$627,500.

J. Oswald Lutted, on a recent visit to the mainland, interested Boston capitalists in a project of manufacturing poi—the Hawaiian national diet—on a scale for marketing it all over the United States. A company is being organized.

The crop bulletin of the local office of the U. S. Weather Bureau for the week ending October 14 contains the following statement: Showery and unsettled weather prevailed in most sections of the group, heavy rains being reported in many windward localities. Growing cane is reported generally as in good condition and doing nicely, but young cane needs rain in the Kau district of Hawaii. The 1906 cane has begun to tassel in Kauai. Pineapple plants are growing nicely in all sections, but in central Maui a dry spell is now desirable for the full and proper development of winter fruit. Coffee picking is progressing in all sections. Second crop rice is heading and in general promises a good yield. Sisal is in good condition in both central Maui and leeward Oahu. All reports indicate a rapid growth of young rubber trees. A large crop of oranges is in prospect in the vicinity of Huelo, Maui.

A record of one arrival and one departure for each of the seven days, on an average, has been made for the week in ocean steam traffic, namely: Arrivals—Nevadan from San Francisco, Ventura from the Colonies, Korea and Sonoma from San Francisco, Moana from Vancouver, Korea for the Orient, Nevada from the Colonies, Miowera from Vancouver and for Kapihulu, Sonoma and Miowera for the Colonies.
